Label Amendment – Addition of target organism claims

Product Name: Hitman Wipe EPA Registration Number: 9402-17 Application Date: June 6, 2014 Decision Number: 491982

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Language to be used if the label is adding or contains a website: Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). If you have any questions, please contact me by phone at (703) 347-0163, or via email at murasaki.seiichi@epa.gov.

Sincerely,

Seiichi Murasaki

#### **DISPENSING DIRECTIONS:**

{One of the following sections will be used for the applicable container type} {Canister Directions}

**To Dispense:** Open [package] [lid] [and] pull out [wipe][towelette] from center of roll. [Next sheet pops up automatically] [Remaining wipes automatically feed through for next use.] Close [top] [lid] tightly [when finished] [to prevent moisture loss] [to retain moisture].

{The following optional graphic may be used in conjunction with the canister dispensing directions:}

{Resealable Package Instrustions (Use for product supplied in resealable pouches/packages)}

To Dispense: [Open lid] slowly peel back label [pull out] [remove] [wipes] [towelettes] as needed. To retain moisture reseal [pouch] [package] by firmly pressing [lid] [label] back on the [pouch][package].

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

#### <sup>†</sup>To Sanitize [Non-Food Contact Sanitizer] [/ Deodorize]:

For hard, non-porous, non-food contact surfaces [{or:}To sanitize hard, non-porous, non-food contact surfaces.] Wipe surface using enough wipes to allow treated surface to remain wet for [15 seconds]. [Let surface dry][air dry]. [No rinsing required.] Remove heavy soil prior to sanitization.

## **^To Clean and Disinfect:**

To disinfect hard, non-porous surfaces, clean surface to be treated using a wipe to completely remove all debris [soil]. Use a fresh [new] wipe to disinfect, thoroughly wetting surface to be treated. Use enough wipes for treated surfaces to remain visibly wet for six [6] minutes. [No rinsing required.]

{The following text will appear on product/market label only when Human Immunodeficiency Virus Type 1 (HIV-1) or Hepatitis B Virus (HBV) are listed on label.}

# Special Instructions for Cleaning and Decontamination Against HIV and HBV on Surfaces/Objects Soiled with Blood/Body Fluids

This product kills HIV-1 and HBV on precleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (e.g. hospitals, nursing homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), and [Human] Hepatitis B Virus (HBV).

102014

**Personal Protection:** When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks, and eye coverings.

Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product.

**Contact time:** Wipe[this product] [on] surface until thoroughly wet. Let stand for 6 minutes. **Disposal of infectious materials:** Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

{The Non-Food Contact Sanitizer directions for use (above) must appear on the product label if the following Residual Self-Sanitizing directions are used}

#### \*\*Residual Self-Sanitizing:

To sanitize for 24 hours [against] [bacteria] [Staphylococcus aureus, Enterobacter aerogenes, and Community-Associated Methicillin Resistant Staphylococcus aureus (CA-MRSA)] on hard, non-porous, non-food contact surfaces. Use enough wipes to thoroughly [uniformly] treat surfaces to remain visibly wet for five [5] minutes. [Air dry.] [No rinsing required.] [Provides residual sanitizing activity for up to 24 hours.]

Product [residue] will be removed by soap and water. If soap and water are used [e.g. to clean a spill], repeat residual self-sanitizing directions.

#### \*To Inhibit [Control] Mold and Mildew [for Up to 7 Days]:

For use on hard, non-porous surfaces. Clean surface first, then treat [wipe] surface, using enough wipes to thoroughly [uniformly] wet the suface. Allow to air dry, reapply weekly.

[Use of this product on a floor or flooring surface is not recommended and may cause a slipping hazard.]

[This product contains Hydrogen Peroxide, which may cause temporary skin whitening after prolonged contact. Wash hands with soap and water.]

[Not for personal cleansing.] [This is not a baby wipe!] [Do not flush in toilet.]

This product [name brand] [is compatible with] [will not harm] (surfaces will be selected from the following) acrylic, aluminum, brass, ceramic, Corian®, glass, sealed granite, laminate countertops, LCD screens, LDPE, [brushed] nickel, painted surfaces, polycarbonate, polypropylene, polyurethane varnish, PVC, silicone rubber, stainless steel, vinyl, vinyl rubber, glazed porcelain and similar hard, [finished] nonporous surfaces. [Spot test before using.]

#### PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

#### WARNING

Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Avoid contact with eyes. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

#### **FIRST AID**

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

#### HOTLINE NUMBER [1-888-346-4652]

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

#### **Physical and Chemical Hazards**

This product contains an oxidizing agent.

#### STORAGE AND DISPOSAL

Store in area inaccessible to children. Dispose of [wipe][towelette] in trash after use. Do not flush.

**Container Handling** {One of the following sections will be used for the applicable container type} {for canister:}

Tightly close lid between uses to retain moisture. Nonrefillable container. Do not reuse or refill this [container] [canister]. Offer empty [container] [canister] for recycling if available or discard in trash.

# {for pouch/package:}

Reseal [label][lid] between uses to retain moisture. Do not reuse or refill empty [pouch] [package]. Offer empty [package] [pouch] for recycling if available or discard in trash.
